

Turbochargers: experience in remanufacturing

FOR MANY YEARS ARMEC HAS TAKEN CARE OF ORIGINAL TURBOCHARGERS REMANUFACTURING, EXPERIENCE THAT ALLOWS ARMEC, TO PRODUCE TEST BENCHES, EQUIPMENT AND TESTERS OF ITS OWN BRAND NAME.

Specialized in the remanufacturing of turbochargers, at Armec they define themselves real "craftsmen, who do not regenerate but remanufacture the turbocharger."

The company has been in business since 1970 and today, the first remanufactured turbocharger dates back to 1983.

In carrying out its activities, Armec remanufactures original turbo of the leading international brands. Guided by a passion for this activity, the owners and employees of the company have gained extensive experience in the field, so as to offer the market the "Turbo Armec", a product that, as Luigi Arbore, quality technician at Armec, states, "stand the test to the original turbo".

With the growth of the business, in 2010 Armec has opened the new headquarters of Corato (BA).

A PRODUCT MORE THAN GUARANTEED

Armec's main purpose is to offer operators a high quality aftermarket product, and for this the company provides the "Turbo Armec" with three guarantees at no additional cost.

The first is the "Kasco Turbo" guarantee, which covers the turbo in case of breakage for any reason, even for normal wear.

The second is the "Kasco Turbo PLUS" guarantee, which covers the costs of materials and labor for the replacement of the turbo.

The third is the "Kasco Turbo ACI" guarantee, which provides assistance and roadside assistance in case of any failure of the vehicle.

EQUIPMENT SPECIALIST

With its experience in the remanufacturing of turbochargers, Armec has created and patented tools, equipment and test benches for the reconstruction of the turbo, so as to best carry out the activity.

The aim, is indeed to provide the "Turbo Armec" always embodying the same specifications of the original turbo. Armec works with many professionals who use the "Turbo Armec" equipment, testers and test benches and with whom the company shares the hands-on experience.

To those wishing to undertake the remanufacturing of the turbo, the company offers for rental its own test benches.

In the workshop you can attend a demonstration of the various stages of the turbo remanufacturing, with the use of "Turbo Armec" equipment, testers and test benches.

To participate simply fill out the invitation form on turbo.it website.

TRAINING

At our premises, we also offer technical training courses aimed at supporting car repair, engine builders, rectifiers and engine remanufacturers.

Armec makes available its expertise, continuously updated, to solve most of the turbo engine problems and to create new jobs.
